

Dear Team,

As you all know, the novel coronavirus cases has immensely increased in our great state of Texas and the country. Casa Do Brasil takes the health, safety, and wellbeing of its employees and customers very serious, and we have decided that for our safety, wearing a mask is now mandatory whether or not you have been vaccinated. This will protect all of us from exposure to airborne droplets of the new Covid-19 Delta variant. We are doing this to keep you, your family, and our guests safe.

Employees can only remove masks, so long as it is safe to do so, for the purposes of eating and drinking. All appropriate hand cleaning measures must accompany this act. In addition, temperature checks are also required before each shift. If you don't have a mask, please reach out to any manager so we can provide one for you.

In conclusion, if you experience any symptoms of Covid-19 (fever, cough, difficulty breathing) or any other symptom of illness, please contact management, and stay home.

Sincerely,

Management
